

HEARING TO CONSIDER CLOSING THE MURPHY DRILL SITE

 10 AM, Thursday, July 23

 Zoom: [Tinyurl.com/MurphyHearing](https://tinyurl.com/MurphyHearing)

In South-LA, the Murphy oil site has been a bad neighbor for decades. At this hearing, LA City will consider revoking the site's conditional use permit. This is our best chance to close the Murphy Drill Site and protect public health and safety.

Or by phone: (213) 338-8477 or (669) 900-9128

When prompted, enter the Meeting ID: 865 8039 2586 #

DELIVER PUBLIC COMMENT

During the hearing, click the raise hand icon (Webinar) or press *9 (Phone) to "raise your hand" virtually after City staff call the item.

Talking Points:

- The City must revoke E&B's conditional use permit to protect public health.
- Research links living near oil sites to short and long term health consequences including lung capacity loss, high blood pressure & increased cancer rates. Residents have reported serious health harms for years.
- Regulatory agencies have issued more than 60 violations of rules intended to protect public health and safety since E&B took over operations in 2019. Many more violations have gone unenforced.
- Residents report frequent odor and oil fume complaints to SCAQMD.
- Residents documented more than 50 operating hour violations in 2025.
- E&B has left graffiti on the drill site for weeks at a time in violation of their operating conditions.
- E&B knows the rules but refuses to follow them

Sample Template:

Hi, my name is _____. I live/work/study near the Murphy Drill Site. I am speaking today in support of revoking E&B's conditional use permit. Regulatory agencies have repeatedly cited E&B for serious violations. E&B has refused to comply with its operating conditions despite numerous attempts by the City to bring the company into compliance. A growing body of health research demonstrates serious harms for those living within 3,200 feet of oil operations. It is clear that oil and neighborhoods do not mix. (Personalize how you or your family are impacted by the oil operations). The Murphy Drill Site is a public nuisance. Please protect residents by revoking E&B's conditional use permit.
